CABLEGRAMS.

THE EAST.

TURKISH AFFAIRS. Philadelphia, May 27.—Gov. Aliko Pascha had announced his intention to discard the Fez and wear the Bulgarian hat, but Gen. Salpigne received a dispatch from Constantinople saying that the sultan insists that the governor shall wear the Fez. The Fez is regarded as an emblem of the old Turkish regime, so the decision has created much excitement here. If persisted in, it will make a great difference in the character of Oleke Pascha's reception, though no disturbance is expected.

PERSONAL.

Prince Alexander, the new sovereign of Bulgaria, will visit Baltimore next week by Queen Victoria's invitation.

GREAT BRITAIN.

AQUATIC. London, May 27.—The rowing match between Plaisted and Nicholson for £100 a side has been arranged for the 23d of June.

OFF FOR AFRICA.

Sir Garnet Wolley leaves for the cape Thursday.

CAPTURED.

A dispatch from Alexandria states that two companies of the Italian escort of the explorer Marquis of Autinori, have been made prisoners by the natives near Shoa.

LABOR.

The arbitrator to whom was referred the question of the reduction of wages in the South Yorkshire coal mines, has decided against any reduction whatever. The works employ 50,000 men and boys.

THE TURF.

London, May 27.—Betting on the Derby is 200 to 1 against Uncas. Cahogan, Saxbert and Victor Chief are the first three in the call. Uncas arrived yesterday at Epsom with Parole. The latter is regarded as sure to win the gold cup Friday, and possibly by a walk over, as he has ten pounds allowance because of being bred in America.

Angry Aldermen.

New York, May 27.—The aldermen who attended the ceremonies in the cathedral Sunday, having previously provided themselves with \$6 tickets, now express much chagrin that they were not invited to their official character. The Herald says: "The feeling of the aldermen is intensified and aggravated by the fact that not many weeks ago the friends of the cathedral wanted to open the street to their water and gas pipes. Opening streets is an expensive operation and the aldermen were asked to remit the costs in this case and they assented."

Justice to a Wronged Woman.

New York, May 27.—The suit of Maria G. L. Blair, formerly Mrs. General Granger, to have her marriage with Captain Thomas Blair annulled on account of his bigamy, has been decided in her favor by the referee.

WASHINGTON.

To-day's Proceedings in Both Houses of Congress.

The Legislative Appropriation Bill to be Voted To-morrow.

THE FOUR PERCENTS.

Washington, May 27.—The following was issued by the treasury department to-day: After to-day no more certificates will be sold by the treasury of the United States over his counter, nor will any be furnished by him to public officers for sale in this city or Boston, New York, Philadelphia or Baltimore. The secretary desires that the remainder of certificates unsold be distributed, so far as practicable, among postmasters bonded for their sale at places other than those above mentioned.

LOSSES OF SPIRITS.

The senate finance committee to-day resumed consideration of Mr. Voorhis's bill making allowances for losses of spirits by leakage or unavoidable accidents during their transportation from distilling warehouses for exportation.

Secretary Sherman opposed the bill on the ground that its enactment would induce carelessness on the part of manufacturers and shippers and result in allowances to an amount that would appreciably diminish the government revenue. The secretary also contended that the existing law works well and affords American manufacturers of alcohol, whisky, rum, etc., entire protection against foreign competition.

INDIAN TERRITORY.

The house committee has authorized a favorable report to the house of the bill giving to all religious denominations rights and privileges in the Indian reservations.

MORRISON'S BILL.

The ways and means committee directs a favorable report upon the bill introduced by Mr. Morrison. May 12th, authorizing an allowance for loss by leakage or casualty of spirits withdrawn from distillery warehouses for exportation.

CONGRESSIONAL.

SENATE.

Washington, May 27.—Mr. McDonald asked leave to present the petition and memorial of ex-soldiers and sailors of Providence, protesting against the provisions of civil service reform, especially in relation to the appointment of custom officers in Providence and alleged interference by federal officers on elections. The memorial seeming to reflect on Anthony who was absent Burnside explained the circumstances alluded to in the memorial.

After a spirited debate on the reception papers, they went over till to-morrow on objection.

ANOTHER VETO.

The president's message vetoing the legislative, executive and judicial appropriation bill will be sent to the house of representatives to-morrow.

HOUSE.

The bill relative to the removal of cases from state to federal courts came up in the morning hour, the pending question being on seconding the previous question.

The republicans then resorted to the policy of withholding their votes, and this made necessary a call of the house.

The call was followed by roll call on the motion to dispense with further proceedings, and, the morning hour having expired, the bill went over without action.

The house then proceeded to consider the bill to prevent the introduction of contagious or infectious diseases into the United States, the senate bill in relation to that subject being substituted for the house bill.

The ways and means committee reported a resolution fixing June 10th as the date of adjournment.

Wirelings.

The Presbyterian general assembly at Saratoga to-day, after a heated discussion, adopted resolutions denouncing the Roman Catholic hierarchy and then adjourned to meet in one year at the state house in Madison, Wis.

At Teegarden, ten miles from Plymouth, yesterday morning, a barn was struck by lightning and burned down and the owner instantly killed.

Meteorological.

Washington, May 27.—Indications: For the Ohio valley and Tennessee, rising, possibly followed western portion by falling barometer, stationary or lower temperature, variable winds, partly cloudy weather and local rains. For lower lake region, falling, followed by rising barometer, variable winds, nearly stationary temperature, cloudy or partly cloudy weather and light rains.

CRIME AND CASUALTY.

FIRE.

New York, May 26.—A fire broke out this evening in the storage warehouse at the corner of Bridge State streets, leased by John Richards and owned by J. Stewart. The building was almost entirely filled with cotton and it is thought may have been smoldering a considerable time before it was observed. The iron shutters on the Pearl street side became red hot. The fire raged fiercely and shortly after it was discovered, four alarms were sent in. In consequence of bales of cotton being packed closely up to the windows, very little effective work could be done from the streets. The whole interior of the building was heated as an immense furnace. Four workmen were on the top floor when the fire broke out, but succeeded in making their escape to the sidewalk. The building is said to be worth \$30,000, and fully insured. The stock was valued at \$800,000.

New York, May 27.—The State street fire is still burning this morning. The building owned by John Stewart, Jr., and leased by John S. Richards, was damaged to the extent of \$20,000; insurance over \$300,000. Wase, Murphy & Co., of Pearl street, had 1,479 bales of cotton in the building valued at about \$100,000; insured. Williams & Blackman had 1,000 bales in the store, insured; D. G. Watts lost 150 bales, insured; Dwight G. Townbridge of 134 Pearl street owned between 200 and 300 bales, insured for \$23,000; B. R. Smith, 109 Pearl street lost 178 bales, insured for \$15,000. Ninety-eight bales belonging to Fachari Brothers, No. 110 Pearl street, are insured. Goodwin, Mayer & Co. had stored 300 bales of cotton; insured. The names of the owners of the other property in the storehouse could not be obtained, but it is thought the goods are insured.

Paris, Mich., May 26.—A fire this morning destroyed 18 stores, hotels and dwelling houses, burning the entire business portion of the village. The fire originated from a stove in a store. Loss estimated at \$35,000. Many buildings were insured.

SUPPOSED SUICIDE. Akron, O., May 26.—Miss Mary Stauer, daughter of respectable parents residing at Greensburg, died very suddenly Saturday evening. Having been in a gloomy mood for some time, it is supposed that she took a dose of poison.

Special attention given to the treatment of

Eye, Ear, Throat, Lung, Chest, Catarrh, Asthma, Complaints of the Liver and Kidneys, Nervous and General Debility,

Paralytic Affections, and all Chronic Complaints, Blood Diseases, Neuralgia, &c.

Being fully convinced that his reputation now established, and that he has already accomplished sufficient to satisfy the most skeptical that advertising with him is a mere medium to call attention to the diseases especially treated by him, and the amount of his success in them, he would now say to all who need and desire his medical services in any of the maladies given above, that they should call on him

WITHOUT DELAY.

TESTIMONIALS

Of cures from the very best known men in the Country, aside of those given below, can be examined at his office, at the Aveline House.

From Horatio Seymour, Ex-Governor of New York.

URICA, May 25, 1874.

Dr. Von Moschzisker brings me letters of introduction from gentlemen of character and standing. They speak highly of his skill and success in treatment of diseases of the Eye and Ear, and those of the Respiratory Organs, and of his attainments as a physician. He has devoted many years of study to the subject which he has made a specialty. In addition to the knowledge he has gained from his reading and observation in this and other countries, he has the advantage of a large and varied experience, with the aid of all appliances which have been devised to a perfect examination of it. From his treatment of cases and his observation and experience, I think he can give relief in all cases which admit of remedy.

HORATIO SEYMOUR.

Indianapolis "Journal."

We take pleasure in saying that we have known Dr. Von Moschzisker for several years, and that he is strictly honorable in all his dealings.

E. B. MARTINDALE & CO.

From the President of the Meridian National Bank, Indianapolis.

It gives me great pleasure to state to the public that under Dr. Von Moschzisker's treatment, not only has my hearing been restored, my catarrh entirely cured, but my general health has been materially bettered, and I can recommend him to those who need his medical services.

DAVID MACY.

Senator Voorhees to Dr. Von Moschzisker.

Terre Haute, Ind., Aug. 8, 1878.—Dr. Von Moschzisker—My Dear Sir: I thank you very sincerely for the relief received from your treatment of my hearing, which has been seriously impaired since February last, the result of an excessively severe cold. I did not need this evidence from my own case of your skill to satisfy me of your merits as a physician; but if any proof in addition to the already obtained from others had been necessary, you have amply furnished it.

Wishing you great and continued success in your profession I have the honor to be, with great respect,

Very truly yours, D. W. VOORHEES.

Lafayette.

The undersigned have been under the professional care of Dr. Von Moschzisker. From and through his treatment with him, and from testimonials in his possession, we believe him to be a gentleman of medical skill and of large experience in the treatment of diseases of the respiratory organs, and from our knowledge of him, we take pleasure in recommending him to the public as a man of much general and professional intelligence, and as deserving of confidence.

We, the undersigned citizens of Philadelphia, take pleasure in certifying that Dr. F. A. Von Moschzisker has been a resident of our city for some years, during which he has acquired a distinguished reputation as practitioner in diseases of the Eye, Ear and Throat. He has been during some time past, been Professor and Clinical Operator in one of our Medical Institutions. Having shown us in the order to enlarge his already extensive experience, and afford those persons who need his services and cannot leave home an opportunity of consulting him, we recommend him to the cordial support of the Press and the confidence of the community. We may see fit to visit. We willingly thus endorse him, that he may not be in the category of traveling physicians, and that he may at once command the confidence which he can use without the otherwise necessarily prolonged residence in each place.

Congressional Summary.

Monday, May 27.—SENATE.—Mr. Edmunds spoke against the bill reported by Mr. Bayard for the exchange of subsidiary coins for lawful money and making such coins legal tender in sums not to exceed \$20. Mr. Edmunds called up his bill regarding the use of the army and made a speech thereon. The bill regulating the transportation of animals was discussed by Mr. McPherson, May and Voorhees. Adjourned after executive session. HOUSE.

Not in session.

SENATOR McDONALD made a very able speech in the senate yesterday upon his bill to regulate the use of the military. The senator ranks as one of the ablest lawyers and most sagacious statesmen in that body, and he is always listened to with close attention. The contract of replying to his sledge-hammer arguments has been awarded by the republicans to their ablest lawyer, EDMUNDS, of Vermont.

The city council will this evening have a number of very important matters to act upon. In electing a police force (if that should be done tonight) great care should be exercised. The present force is composed, for the most part, of worthy and efficient men, but it contains two or three men who are notoriously incompetent and unreliable, and they should be promptly "bounced." The question of distributing the fire apparatus is one of great importance, and we believe the public demand is for such distribution. Something should be done at once in the matter of abating the calaboose nuisance. A change is demanded by every consideration of common decency and ordinary humanity.

He Will Have an Army.

[Warsaw Union.]

The Fort Wayne Gazette is pre-empting on the prospective republican candidate for governor next year. The first on its list of favorites is Jim Tyner, assistant postmaster general, or more properly speaking, postmaster general for this latitude. Tyner would be a "heavy" candidate, and if the republicans should nominate him, the democrats will have no reason to feel discouraged. Of course he will have a small army of post office editors to blow his horn for him.

A Great Mistake.

[Columbian Republican.]

The Fort Wayne SENTINEL, one of the oldest and ablest democratic papers in the state, condemns the removal of Mr. McIntire from the superintendency of the deaf and dumb asylum. It says he was a very efficient man of long experience, took no active interest in politics and that there was no charge against him. It justly regards the removal of such a man, for purely partisan purposes, as a great mistake.

Hardly Ever.

[Forty's Progress.]

"You are right," says a lady correspondent, "we do not go to matinees and academy exhibitions to flirt," and then she adds: "but if we do, it is because our husbands never will find the time to accompany us on account of business and their own pleasures."

The "Sentinel."

[Warsaw Republican.]

The Fort Wayne SENTINEL has been enlarged and greatly improved under the new management and is now one of the finest looking papers in the state.

QUEEN OF THE OVEN.

A biscuit made by Dr. Price's Cream Baking Powder is certainly the queen of the oven. So light, white and enjoyable! After breakfasting on biscuits made with Dr. Price's Cream Baking Powder, what man would contemplate suicide, or grumble because his wife asked him for money?

LITERATURE.

New Books.

MOTIVES IN LIFE. By Prof. David Swing. Price \$1. Chicago: Jansen, McQuinn & Co.; Fort Wayne: Simon & Co.

This little work will add materially to Prof. Swing's reputation. The book is composed of six lectures, viz: Intellectual Progress; Home; A Good Name; The Pursuit of Happiness; Benevolence; and Religion. In these lectures Prof. Swing discusses some of the principal motives which actuate mankind generally. The lectures are characterized by that broad philosophy, that genial humor, that catholic spirit, that deep humanity which pervade all of his writings, and which have placed him in the front rank of American thinkers and orators. The tone of the book is healthful, and no man or woman can read it without being made better by having done so.

A TENOR BY CHANCE, AND OTHER ROMANCES. By Dr. F. A. Von Moschizker.

Dr. F. A. Von Moschizker, the eminent specialist who is now sojourning in our midst, is the author of several works of high literary merit, of which the above mentioned volume is one. The doctor, in his preface, states that he writes rather for love than for fame; but we are constrained to say that had he confined himself strictly to literature he would certainly have obtained the latter in a high degree. In his stories he displays rare descriptive powers, powerful imagination and not a little knowledge of human nature. His characters are cleverly drawn, and are the counterparts of those one meets frequently in real life. This volume contains several short stories, all well written and deeply interesting, and also a number of poems and sketches of much merit.

Dr. Von Moschizker writes English as though it, instead of Polish, were his native tongue. Indeed he is the master of eight languages, and could doubtless write as well in either of them as in English. We heartily commend this volume as brilliant and entertaining. Dr. Von Moschizker is now devoting his leisure time to writing another story which will shortly be published in Philadelphia.

ECLECTIC.

The June number of the Eclectic E. Polton, 25 Bond street, N. Y., closes the twenty-ninth volume of the new series, and is provided with an index which, comprising nearly one hundred titles, besides the editorial department, shows how wide is the scope and how varied is the interest of the magazine. The present number is embellished with a fine steel-engraved portrait of Prof. Spencer F. Baird, of the Smithsonian Institution. The table of contents is as follows: "On the Choice of Books," Frederic Harrison. "The Egyptian Crisis," Edwin Diez. "Conservation and the Saniferous Organs." Prof. Huxley. LIPPINCOTT'S MAGAZINE.

Lippincott's Magazine makes a specialty of articles depicting social life and manners at home and abroad, and this feature is conspicuous in the June number. In "State and Society in Ottawa" we have an entertaining description of the viceregal court, with handsome illustrations. The second of Mrs. Wister's two papers on Paris brings the splendor of the Old World into juxtaposition with those of the new. "Housekeeping in Texas" is another finely illustrated paper. Somewhat in the same vein is the continuation of Miss Porter's papers on "Village Life in the South." An article on "American Fiction," by M. G. Van Rensselaer, shows how

critical sagacity, and a paper on Sir William Johnson deals with an interesting episode in our colonial history. There are two short stories, "A Strange Story from the Coast," by Rebecca Harding Davis, and "Played Out," by the author of "The Clifton Picture," and other popular novels. "Through Winding Ways," and the first part of another story in the brilliant series entitled "Women's Husband," must not be overlooked; while the "Monthly Gossip" is rich in sprightly and piquant papers under such titles as "An English Husband," "The American Snob," "London Society Notes," etc.

POPULAR SCIENCE MONTHLY.

The contents of the June number are as follows: "The Condition of Women from a Zoological Point of View," I, by Prof. W. K. Brooks. "Selecting a First Meridian," by E. Cortambert (illustrated). "The United States Life-Saving Service," by W. D. O'Connor (illustrated). "Disordered Condition of the Faculty of Wonder," by Prof. Gaidner. "Are Explosions in Coal Mines Preventable?" by Francis R. Conder. C. E. "Chemistry in Its Relations to Medicine," by Prof. Ira Remsen. "The History of Games," by Edward B. Taylor, F. R. S. "Whales and Their Neighbors," by Dr. Andrew Wilson. A Wonderful Discovery.

For the speedy cure of Consumption and all diseases that lead to it, such as stubborn coughs, neglected colds, bronchitis, asthma, pain in the side and chest, dry hacking cough, tickling in the throat, hoarseness, sore throat and all chronic and lingering diseases of the throat and lungs, Dr. King's New Discovery has no equal and has established for itself a world wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all medical journals. The clergy and the press have complimented it in the most glowing terms. Go to your druggist and get a trial bottle free of cost or a regular size for \$1.00. For sale by Dreier & Bro., Fort Wayne, Ind.

LIVELY STOCK OPERATIONS.

The current of recent events has given great impetus to business in Wall street, and many successful turns are reported where immense profits are made in short periods. The most successful way that we have heard of yet for opening in stocks is by the combination method of Messrs. Lawrence & Co., Bankers, New York. By this system thousands of orders in various sums are pooled into one vast capital and operated under the most experienced and skillful management, thus securing to each shareholder superior advantages and profits, not possible in any other way. Profits are paid at the end of 30 days. A gentleman in Boston, made \$75,000 on an investment of \$100. Many others are doing as well or better. Capital in any amount from \$10 to \$100,000 can be used with equal proportionate success by this combination or co-operative method. \$15 would make \$75 or 4 percent on the stock; \$100 would return \$800, or 8 percent during the month, and so on according to the market. The new circular contains "two unerring rules" for success, and full information, so that anyone can operate with profit. Stocks and bonds wanted. Deposits received. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

A cool, sparkling and refreshing beverage is Rhein's Natural Mineral Water. For sale by druggists, grocers and liquor dealers generally.

We have long wanted a safe and reliable remedy for the cure of Chills and Fever. Quinine will cure it, but it disturbs the head and the fever returns. Now we see that Messrs. Wheelock, Finlay & Co., publish the composition of their Dr. F. Willott's Anti-Periodic or Fever and Ague Tonic, which is guaranteed a specific for the cure of Chills and Fever, and is sold by druggists.

A NARROW ESCAPE.

Mrs. Mayor Zollinger's Terrible Experience.

A Frightful Runaway on Broadway.

The SENTINEL of last evening printed an exclusive account of the runaway of Mayor Zollinger's horse on Broadway about 3 p. m. The lateness of the hour at which the accident took place precluded the publication of full particulars.

At the hour stated Mrs. Zollinger drove to Wright's drug store, at the corner of Broadway and Washington streets, and was about to get out of the buggy when a man turned the corner from Washington street leading a buffalo, to which about thirty feet of rope was attached. At this the horse took fright and dashed away, leaving over the hitching post and throwing Mrs. Zollinger completely over the dash board. She struck on the cross-bar of the shafts, in which position she rode one square. The horse dashed wildly ahead, and the people on Broadway were nearly paralyzed to see the deadly peril in which our mayor's estimable wife found herself.

At the intersection of Jefferson and Broadway some workmen were engaged in laying pipe and two of them sprang forward, caught the frightened animal by the bridle and stopped him. Mrs. Zollinger was taken from her dangerous position more dead than alive, the fright and shock being terrible. If the horse had gone ten feet further he would have plunged into the ditch and Mrs. Zollinger would doubtless have been killed. The buggy was not much damaged.

Mrs. Zollinger was taken to the residence of Mr. Bittenbender, corner of Washington and Broadway, and medical assistance summoned. It was found that she was hurt in the side, and there were indications that she had sustained internal injuries. This morning Mrs. Zollinger was feeling much better, and no serious results are apprehended. A woman whom Mrs. Zollinger had employed to assist in housecleaning was in the buggy with her at the time of the accident, but fortunately escaped injury. Her name was not obtained.

Officer Fahlsing happened to be in the vicinity at the time of the occurrence, and he arrested the man who had the buffalo and locked him up. Mayor Zollinger shortly afterwards ordered him released.

At the City Hospital on Friday, Dr. Myers will amputate the left leg of Calvin Heath at the lower part of the thigh. Heath is fifty-seven years old, and has suffered from necrosis forty-seven years. He has been badly disabled for four years past, and his leg is in danger of breaking when he walks on it.

Harry Davenport, the young boy who was hurt while attempting to board a train at the south depot on Friday, is recovering rapidly and when he is entirely well will receive a situation as office boy from a Fort Wayne doctor. That is the right way to reform tramps. Harry is a bright, intelligent looking boy.

Warsaw Nat. Union: Dr. Everhart county historian, has closed his labors in this county. We have found the doctor to be a pleasant and agreeable gentleman, and our short acquaintance with him has been one of profit and pleasure. Dr. Everhart, is now in Fort Wayne engaged upon a similar work of this county, soon to be published by Kingman Bros.

Chas. E. Young, who had the scrimmage at White's Grove on Sunday, objects to being called a rough. He admits that in former years he was somewhat tough, but says that for several years past he has been behaving himself like a gentleman, and gives good references as to that statement. He also denies that he was in the wrong in the unpleasantness of Sunday with ex-Marshal Kelly. Mr. Young is very polite and gentlemanly in his manner and seems to have reformed in earnest.

The abutments and piers of the new bridge across the St. Joe River, about two miles this side of Leo, will be completed next week and will be ready for passage about the middle of July. Moellering and Paul, of this city, have the contract for building the same. The stone are all brought here from the quarries of Sutermeister & Bond, at Stony Point, Mich., and transported to Leo via the river. Messrs. Moellering & Paul have the contract for building four more bridges in this county. The commissioner of Miami county arrived in the city this morning to inspect some of Moellering & Paul's work, which, if satisfactory will result in their awarding the contract to the said firm, for a building across the Wabash at Peru, there being twelve competitors. Olds & McLachlin will do the iron work.

THE RAILROADS.

Engines No. 178 and 112 are nearly ready to leave the Pittsburgh shops.

Forty-four trains passed over the Wabash yesterday between this city and Lafayette.

Unjust.

The Huntington Herald has the following:

"Excellent, formerly the property of Col. Milligan, of this city, but now owned by W. H. Myers, of Fort Wayne, was badly broken in the Louisville races, the early part of this week. Fort Wayne sports who invested money in behalf of W. H. Myers, lost money, and are loud in their denunciations of Ed. Waud, who has charge of the horse. Of course the thing is a cheat all round, but it would be entirely appropriate for Mr. Myers to arise and explain how much money he made in the cheat."

Mr. Myers is regarded hereabouts as a square man, who would not take part in a put up job. Ed Waud, however, is a scaly customer, and will bear a heap of watching.

Remarkable Memorial to the A. M. E. Quarterly Conference.

Which is Unceremoniously Kicked Under the Table.

At the session of the A. M. E. quarterly conference, which concluded last evening, our distinguished and highly colored fellow citizen, Thomas Weaver, presented the following memorial, which was ignominiously kicked under the table:

To the ensuing quarterly conference to be held in the A. M. E. Church in Ft. Wayne May

Ft. Wayne Ind April 27th 1879
Now the appellant Thomas P. Weaver complaining and appealing to this quarterly conference convened in the city of Ft. Wayne, Indiana for redress for the expulsion from the church of which he is a full member without cause, or for any crime more than failing to attend meetings. Now comes the appellant Thos. P. Weaver claiming that he had a right to absent himself from his class for the following reasons, to-wit: 1 That From the Pastor in charge down to the lay member there was a prejudice worked up against the appellant for which he felt aggrieved 2 That to keep some charges from before the Proper Persons. He expelled the appellant without investigation, judge, jury or trial, and that known to the laws of discipline or civil law. 3 That one John Vorce alias Vorshall or some one maliciously told and circulated that I the appellant had bought Sister Samantha Meddell a certainshaw which he or they knew was untrue from first to last. 4 That for this and other charges was the appellant discriminatorily expelled and on the statement of the Rev. Robert Meddell that he properly should doing have expelled the said appellant longer to keep the church from rebelling against him which must be untrue on account of sickness and absence on account, therefore, therefore now come the appellant and member in full standing in the A. M. E. Church in Ft. Wayne, Indiana praying that he have a fair and impartial trial or hearing as according to all known law whether church or state no person shall be deprived of his or her rights without a fair and impartial trial which the appellant claims he did not have as he was squelched down with out being allowed to utter one word in his behalf and was discriminatorily expelled. For which the appellant asks a relief and reinstatement to all former Privileges of Said A. M. E. Church. Thos. P. WEAVER, appellant.

TERRIBLE ACCIDENT.

An Old Man Falls Asleep on a Railroad Track.

He Is Run Over and Loses a Pair of Legs.

Stephen Allgeier, a farmer, who lives four miles east of this city, near the Pittsburgh, Fort Wayne and Chicago Railroad, was run over by the second section of No. 8 on the Wabash road, at Nelson's crossing, last evening about 9.30. He was in the city yesterday and indulged rather too copiously and then started to go home. By some means he got upon the Wabash road instead of the Pittsburgh track, and walked on until he thought he must be near home. When at Nelson's crossing he first realized that the surroundings were unfamiliar and sat down upon the track to rest. He was soon overcome by the effects of the liquor which he had drunk, and fell asleep and was not discovered until too late to avert the accident. One leg was entirely cut off by the train and the other one terribly broken and mangled. This leg was amputated this afternoon at 2 o'clock by Dr. Gregg and assistants, at St. Joseph's Hospital, where the injured man was taken about 1.30 this morning. It is not expected that he will recover as he lost a great quantity of blood, and is between fifty and sixty years of age. One of his sons is living in this city and is a tinner by trade, and the other was formerly in the employ of the fire department.

The Physical Paradox.
It has been said that "the blood is the source of life." It is as truly the source of disease and death. No life, that is to say, no healthy tissue can be generated from impure blood, no organ of the body can normally perform its functions when supplied with impure blood. The fluid that should carry life and health to every part, carries only weakness and disease. Blood is the source of life, only when it is pure. If it has become diseased, it must be cleansed by proper medication, else every pulsation of the human heart sends a wave of disease through the system. To cleanse the blood of all impurities, use Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets, the most effectual alternative, tonic, and cathartic remedies yet discovered. They are especially efficient in scrofulous diseases.

A NARROW ESCAPE.

Mrs. Mayor Zollinger's Terrible Experience.

A Frightful Runaway on Broadway.

The SENTINEL of last evening printed an exclusive account of the runaway of Mayor Zollinger's horse on Broadway about 3 p. m. The lateness of the hour at which the accident took place precluded the publication of full particulars.

At the hour stated Mrs. Zollinger drove to Wright's drug store, at the corner of Broadway and Washington streets, and was about to get out of the buggy when a man turned the corner from Washington street leading a buffalo, to which about thirty feet of rope was attached. At this the horse took fright and dashed away, leaping over the hitching post and throwing Mrs. Zollinger completely over the dash board.

She struck on the cross-bar of the shafts, in which perilous position she rode one square. The horse dashed wildly ahead, and the people on Broadway were nearly paralyzed to see the deadly peril in which our mayor's estimable wife found herself.

At the intersection of Jefferson and Broadway some workmen were engaged in laying pipe and two of them sprang forward, caught the affrighted animal by the bridle and stopped him. Mrs. Zollinger was taken from her dangerous position more dead than alive, the fright and shock being terrible. If the horse had gone ten feet further he would have plunged into the ditch and Mrs. Zollinger would doubtless have been killed.

The buggy was not much damaged. Mrs. Zollinger was taken to the residence of Mr. Bittenbender, corner of Washington and Broadway, and medical assistance summoned. It was found that she was hurt in the side, and there were indications that she had sustained internal injuries. This morning Mrs. Zollinger was feeling much better, and no serious results are apprehended. A woman whom Mrs. Zollinger had employed to assist in housecleaning was in the buggy with her at the time of the accident, but fortunately escaped injury. Her name was not obtained.

Officer Fahling happened to be in the vicinity at the time of the occurrence, and he arrested the man who had the buffalo and locked him up. Mayor Zollinger shortly afterwards ordered him released.

BREVITIES.

J. P. Powers, of Toledo, is in the city.

J. D. McDonald was at Toledo yesterday.

H. C. F. Westrumb was fined \$5.00 in the circuit court to-day for contempt.

The little boy Miller, who was gored by a cow Saturday night, is out of danger.

There is some talk of having an old-fashioned Fourth of July celebration in this city.

The Masonic Temple and Opera House, as it is to be, can be seen in Mordhurst's show window.

Great preparations are being made for the celebration of decoration day at Maysville and Monroeville.

A picked nine will play base ball with the Concordian nine next Saturday afternoon. Geo. Crawford will pitch.

Councilman Chittenden will to-night introduce a resolution looking to the erection of a new calaboose.

Good.

There came near being a shooting bee at Geo. Strodel's saloon last night.

Too much aqua-fortis-stillberry-appropriatis was the cause.

Robert Zink desires the SENTINEL to state that he is divorced from the woman bearing his name who was up for prostitution yesterday.

There was never so little crime in this county as at present. There is not a single felony case on the docket of the criminal court, and not a prisoner in jail awaiting the action of the grand jury.

Housecleaning days are nearly over, and this thing of washing up in the kitchen, eating a cold meal from the ironing board, and fishing up a clean shirt from a tub full of pots and pans is almost played out.

Marshal Diehl received a card from Muncie, this morning, telling him to watch for horse thieves who have been operating at Ada, O., Winchester, Muncie and surrounding towns. They appear to be well organized.

Business at the French Brewery is lively this spring. Last week one hundred and fifty dollars in government stamps were used at this Brewery.

Murray's foundry is turning out Heller & Dague's road scrapers at the rate of ten per week.

An ordinance is to be introduced to-night to prevent wild buffaloes from running at large. Luce Stapleford will be in the lobby.

Will Fuller and Fred Heidenreich, who have been doing Toledo, returned home yesterday via the Wabash. They came on a freight, as the palace cars were all engaged.

The Bass shops are working on a heavy contract getting out castings for the Noble School Furniture Company of Goshen, Ind. Forty men are employed in the machine shop alone.

In a few days the SENTINEL expects to chronicle the death of from fifteen to twenty small boys who are in the habit of jumping on every incoming train on the south roads.

The ladies of the Centenary M. E. Church will hold their social at the residence of Mr. Albert Polhamus, No. 73 Dawson street, Wednesday evening, May 28th. All are cordially invited to attend.
